18.6 POLICY FOR ESTABLISHMENT OF PRIVATE UNIVERSITIES IN ZONE-IV, ISLAMABAD.

DECISION

After detailed discussion and keeping in view the hydraulic study provided by Hamdard University conducted by Designmen Consulting Engineers Pvt. Ltd. as vetted by Department of Civil Engineering, UET Taxila. The following decisions have been taken to protect the educational institutions from possible flooding of Gumrah Kas in Zone-4, Islamabad:

- i. Right of Way of Gumrah Kas would be 400 feet i.e. 200 feet right of way should be left from the centre line of nullah on either side.
- ii. No basement of lower ground would be permissible in any building within 250 feet of nullah centre line unless proper training and protection works at the bank are provided and maintained to improve hydraulic flow conditions of the nullah.
- iii. The minimum floor level of building would not be less than 2 feet above the highest flood level in order to avoid any possible hazard of flash flood entering into the area of the institution.
- iv. The maximum water level in the Gumrah Kas is 1642 feet above sea level.
- v. Nullah training works with proper engineering design and approval of CDA would be provided prior to commencement of construction activity in the campus area.
